

# Clinical Management Challenges in Infants and Young Children with Achondroplasia

Thursday 27 October 2022 16:30–19:30 CET

*Chair*  
**Encarna Guillen Navarro**  
 Virgen de la Arrixaca  
 University Hospital,  
 Murcia, Spain

The management of infants and young children with achondroplasia is well documented in the literature, but what are the challenges faced in clinical practice, how closely does practice align with recommendations, and are the expectations of care different between clinicians and parents? This *Developments in Achondroplasia* workshop will address these key questions, with discussions led by an international faculty of clinicians and parents of children with achondroplasia.

<b>From Diagnosis Through Childhood: A Family Perspective</b>	Inês Alves
<b>Assessing Outcomes in Infants and Young Children</b>	Tawfeg Ben-Omran and Inês Alves
<b>Clinical Challenges in Infancy and Early Childhood</b>	Valérie Cormier-Daire and Marco Sessa
<b>Recommendations vs Reality</b>	Geert Mortier
<b>Overcoming Barriers to Best Practice</b>	Encarna Guillen-Navarro
<b>How Might Therapeutic Options Impact Clinical Management?</b>	Ekkehart Lausch

**Inês Alves**  
 ANDO Portugal,  
 Evora, Portugal

**Tawfeg Ben-Omran**  
 Sidra Medicine &  
 Hamad Medical  
 Corporation,  
 Doha, Qatar

**Valérie  
Cormier-Daire**  
 Paris Descartes  
 University,  
 Paris, France

**Marco Sessa**  
 AISAC,  
 Milan, Italy

**Geert Mortier**  
 UZ Leuven,  
 Leuven,  
 Belgium

**Ekkehart Lausch**  
 University  
 of Freiburg,  
 Freiburg,  
 Germany
